

I am a Full-Stack Engineer with 5+ years of experience delivering scalable, secure, and maintainable web and mobile applications. Experienced in full software development lifecycle, agile delivery, and enterprise-grade system integration. Proven ability to work across teams, own features end-to-end, and contribute to hybrid work environments. Strong communicator, fast learner, and problem solver. Passionate about clean code, performance, and solving real-world problems.

TECHNICAL SKILLS

- Languages/Frameworks: ReactJS, React Native, Node.js (Express), TypeScript, JavaScript
- Dev Tools: Git, GitHub, GitLab, Jira, Bitbucket, Trello, Slack
- Database: MongoDB, Firebase, MySQL, (Basic knowledge: PostgreSQL)
- Cloud/Infra: Azure, Firebase Cloud, Docker (basic), CI/CD
- Development: REST APIs, Agile/Scrum, TDD, OOP

QUALIFICATIONS

- 5 years of industry experience developing front-end and back-end applications
- A fast learner, self-motivated, and hardworking individual
- Collaborative team player and self-starter
- Problem solver with the ability to analyze and prioritize difficult tasks

Experience

DECEMBER 2023 – PRESENT

Full Stack Developer / 16174876 Canada Inc, Canada

Technologies: React Native, Node.js, Firebase, MongoDB, Azure, Redis, SaaS

- **Jan 2024 – Apr 2024:** Built prototypes and explored advanced features with React Native.
- **May 2024 – Oct 2024:** Developed LingoTalk, a language learning app (not released due to market duplication).
- **Nov 2024 – May 2025:** Architected, built, and launched SpeakFocus - an AI-powered learning languages app.
 - Led a small team of 2 junior developers and 1 designer.
 - Integrated OpenAI APIs, text-to-speech, and in-app purchases.
 - Deployed to App Store and Google Play; independently managed updates, analytics, and user feedback.
 - Live product: <https://speakfocus.net> | [App Store](#) | [Google Play](#)

MAY 2022 – DECEMBER 2023

Full Stack Developer (JAM Stack) / Element6, Canada

As a Full-stack developer at Element 6, I took care of 20+ React and TypeScript websites. I worked closely with clients to create custom solutions for both the front-end and back-end (using JAM stack). My skills include using UI libraries: Material UI, Ant UI, and Bootstrap for front-end development. I'm experienced in React, Redux, and NextJS. I also created prototypes using React, ReactJS, TypeScript, and Node.js (ExpressJS). On the back-end, I developed over 10 servers using Node ExpressJS with TypeScript. These servers were for e-commerce websites, landing pages, and a custom CMS, as well as serverless applications.

OCTOBER 2021 – APRIL 2022

Software Engineer / Dynamicly, Canada

We developed a platform that facilitates connectivity between doctors and patients, employing the MERN stack and microservice architecture. Additionally, I renovated the existing customer onboarding platform into a Single Page Application, enhancing the customer experience through the utilization of modern web technologies within the MERN stack. Furthermore, I collaborated with cross-functional teams to construct and integrate microservices, employing patterns like Backend for Frontend.

- Renovated existing customer onboarding platform to Single page application to bring new customer experience using modern web technology (MERN)
- Collaborated with other teams to build and consume microservice architecture such as Backend for Frontend pattern.

MAY 2021 – SEPTEMBER 2021

Junior Software Developer / Provix Inc., Canada

I utilized React to construct their website according to their specifications. Additionally, I developed a content management system and a database, as per the order directly from the Vice President, utilizing Excel files. React and SCSS were employed for the front end.

- Designed and deployed landing pages.
- Used ReactJS and ExpressJS to design, implement and deploy new features of product.
- Worked closely with Vice President to design and deliver custom software solution.

Education & Certification

SEPTEMBER 2020 – APRIL 2022

Interactive Media Design - Web / Georgian College, Barrie, ON

2018 – 2020

Developer Courses / Online

Self-studied and completed more than 32 certifications in Azure, JavaScript, TypeScript, Webpack, MySQL.
